curiosity and passion.

EXPERIENCE

Wedding Salon - Marketing, Development (Feb 2023 - Nov 2023)
- Developed a payment gateway to process dozens of thousands of dollars from sales, as well as proposing the idea of building it in the first place..
- Creation of landing pages for multiple events with a 20% conversion rate.
- Maintained sales funnels with hundreds of clients, generating client retention throughout the year.
- Carried out email marketing campaigns to potential clients, converting **cold leads** into actual clients.

Freelancer - English Tutor (Jan 2020 - Nov 2022)
- Guided English students remotely, adapting study plans to their different needs.

DPM Diving - Manager (Aug 2018 - Oct 2019)
- Managed multiple hostels, handling reservations, logistics, and staff.
- Optimization of their SEO and creation of ad campaigns.

International House - English Teacher (Feb 2013 - Dec 2018)
- Led hundreds of students towards passing international exams of all ages and levels, including First Certificates (FCE) and Certificates in Advanced English (CAE).

SOME OF MY PROJECTS

- **Manejate (**Nextjs, TypeScript, CSS, Geolocation API, Google Maps API**)** - webapp for travelers. Shows nearby open businesses for food, health and lodging and traces a route to them. Link - Code
- **Mango Tree** (Node.js, JavaScript, Discord.js) - Discord bot allowing users to check current top live games (using the OpenDota API) and simulating in-game tipping mechanics to have fun with. Link
- **Peka** (Reactjs, JavaScript, styled-components, Expressjs) - simple network for people growing their own vegetables to share, and trade seeds, plants and ideas. Link - Code
- **Open Source: Alveus** (Nextjs, Reactjs, TypeScript, TailwindCSS) - Alveus is an animal sanctuary located in the USA, with an open-sourced website that I've contributed to. Link - Code
