EXPERIENCE

Wedding Salon - Marketing, Development (Feb 2023 - Today)
- Developed a payment gateway to process dozens of thousands of dollars from sales, as well as proposing the idea of building it initially.
- Creation of landing pages with a 20% conversion rate for thousands of visitors for multiple events.
- Maintained sales funnels with hundreds of clients, generating client retention throughout the year.
- Carried out email marketing campaigns to potential clients, converting **cold leads** into actual clients.

Freelancer - English Tutor (Jan 2020 - Nov 2022)
- Guided English students remotely, adapting study plans to their different needs.

DPM Diving - Manager (Aug 2018 - Oct 2019)
- Managed multiple hostels, handling reservations, logistics, and staff.
- Optimization of their SEO and creation of ad campaigns.

International House - English Teacher (Feb 2014 - Dec 2018)
- Guided hundreds of students to pass international exams of all ages, including First Certificates (FCE) and Certificates in Advanced English (CAE)

SOME OF MY PROJECTS

- **Find Open (**Nextjs, TypeScript, CSS, Geolocation API, Google Maps API**)** - webapp for travelers. Uses your location to show nearby open stores and traces a route to them. Link - Code
- **Peka** (Reactjs, JavaScript, styled-components, Expressjs) - simple network for people growing their own vegetables to share, and trade seeds, plants and ideas. Link - Code
- **Alveus** (Nextjs, Reactjs, TypeScript, TailwindCSS) - Alveus is an animal sanctuary located in the USA, with an open-sourced website that I've contributed to. Link - Code
- **Hidden Objects** (ReactJS, JavaScript, CSS, Firebase) - hidden objects game where users have to find randomized items from a video game. Contains a leaderboard for the 20 fastest users in completing it. Link - Code
